MTL 2.5

Modeling to Learn

Test. Don't guess.

MTL objectives include activities and competencies that...

1. Are meaningful for you and align your learning goals with your team.
2. Develop systems thinking skills to help you see how several things fit together, & understand causes hard to see without data & modeling resources.
3. Make VA data, initiatives, and standards transparent to you.
4. Empower you to realize ongoing improvements in team quality of care & work life.

How to: Navigate the Data UI

Reset: Click to reset all your filters for **all tabs**. (Use with caution!)

Bookmarks: Click to view and/or save personal selections in all tabs.

Full Screen: Click for Full-Screen Mode.

The screenshot shows the MTL Data UI interface. On the left, there's a sidebar with a search bar and a list of tabs: DataUI (Viz), DataUI (Params), Clinic Selection, dataEnc, dataDiag, dataHF, dataMeas, dataFlag, vizEnc, vizDiag, vizHF, vizMeas, and vizFlag. The main area is divided into several panels: 'Filter by Division Name' with a list of divisions (e.g., PAD-PRRTP, PALO ALTO, CAC), 'Other Filters' with checkboxes for PrimaryStopCode and SecondaryStopCode, 'Physical Location' with a search bar and a list of locations, and 'Select Clinics to Generate Report Data' with a search bar and a list of clinics. There are also 'Apply' buttons for each filter panel. On the right, there's a 'Bookmarks' panel with a list of bookmarks (e.g., EC Test, CV Test) and a 'Report Bookmarks' section. At the bottom, there's a 'Filters' panel with a search bar and a list of filters (e.g., Depression, PTSD). The interface is annotated with green arrows and text boxes explaining various features.

DataUI (Viz): Click on to explore through tabs different visualizations, counts, and data on individual patient information (contains PHI).

DataUI (Params): Click to explore and produce and view descriptive team data to use in the Simulation User Interface.

Apply Selections: The button will turn yellow to remind you to apply changes.

Check Filters: Check if any filters are affecting your data and/or visual.

Focus Mode: Click to zoom in on the tab.

Filters Panel: Use this panel in the **data tabs** to narrow down individual patient information. **Click on a column in the data tab first to see filtering options in the panel.**

Note: Viz tabs have an additional filter built into the graphs for extra filter options (e.g. VVC filter in vizEnc).

Homepage: Clinic Selection will be your homepage. Filter through the light blue and dark blue columns to narrow down clinics in the green column and then select and click "Apply" to generate your team's data.

Report Bookmarks: Pre-defined bookmarks created by Facilitators with Team Leads.

Clear Selections: Click on the eraser icon to clear your selections.

Search: Type in a selection you are looking for.
