MTL 2.5

Modeling to Learn

Test. Don't guess.

MTL objectives include activities and competencies that...

1. Are meaningful for you and align your learning goals with your team.
2. Develop systems thinking skills to help you see how several things fit together, & understand causes hard to see without data & modeling resources.
3. Make VA data, initiatives, and standards transparent to you.
4. Empower you to realize ongoing improvements in team quality of care & work life.

How to: Navigate the Data UI

Reset: Click to reset all your filters for **all tabs**. (Use with caution!)

Bookmark: Click to save your selections and filters for all tabs.

Full Screen: Click to go into Full-Screen Mode.

DataUI (Viz): Click on this tab to explore through tabs different visualizations, counts, and data on individual patient information (contains PHI).

DataUI (Params): Click on this tab to explore through tabs different visualizations, counts, and data on individual patient information (contains PHI).

Filter by Division Name: Select a division name from the list. The 'Apply' button will turn yellow to remind you to apply changes.

Filter by Physical Location: Select a physical location from the list. The 'Apply' button will turn yellow to remind you to apply changes.

Other Filters: Select filters for PrimaryStopCode, SecondaryStopCode, and IsInactive. The 'Apply' button will turn yellow to remind you to apply changes.

Select Clinics to Generate Report Data: Search for a clinic name and select it. The 'Apply' button will turn yellow to remind you to apply changes.

Search: Type in a selection you are looking for.

Clear Selections: Click on the eraser icon to clear your selections.

Check Filters: Check if any filters are affecting your data and/or visual.

Focus Mode: Click to zoom in on the tab.

Filters Panel: Use this panel in the data tabs to narrow down individual patient information.

Note: Viz tabs have an additional filter built into the graphs for additional filter options (e.g. VVC filter in vizEnc).

Homepage: Clinic Selection will be your homepage. Filter through the light blue and dark blue columns to narrow down clinics in the green column and then select and click "Apply" to generate your team's data.
